SENATOR NEWLANDS ON THE RACE QUESTION

Says National Law Is Needed and There Is No Room For Diplomacy.

WASHINGTON, D. C., Feb. 8.—Senator Newlands of Nevada, in a statement given to the Associated Press last night, asserted that there should be broad national legislation covering the whole Japanese question.

"The legislation proposed by the Pacific Coast States intended to meet certain purposes of what constitutes a national peril has been opposed by the President as involving violation of the treaty with Japan and imperiling the friendship," he said. "Whilst the Pacific States will in all probability eventually yield to such suggestion there is danger that the abandonment of such legislation may be misunderstood by the Eastern States whose people are unfamiliar with the economic and social dangers attending Asiatic immigration and that they may think we acquiesce in the view that a great question of national domestic policy should be turned over to the negotiation of diplomats.

No question involving such important consideration as race homogeneity and domestic industrial peace can safely be turned over to diplomacy."

Race Question in Foremost.

Continuing the Senator stated that the Nevada Legislature should adopt resolutions making the following declarations:

That the race question is now the

most important question confronting the nation, that already we have drifted regarding the black race into a condition which seriously suggests the withdrawal of the political rights heretofore mistakenly granted—the inauguration of a humane national policy which with co-operation and the aid of the Southern States shall reorganize that the blacks are a race of children requiring guidance, industrial training and the development of self-control, and other measures intended to reduce the danger of the race complication formerly sectional, but now becoming national.

"That our duty to our race and our institutions and the maintenance of friendship with races differing in color alike demand that we abandon the attempted adjustment of these questions by international treaty and pass a national law to take effect upon the expiration of existing treaties emphatically declaring that our country is open to white immigration alone; that such immigration shall be restricted to those of a constitution, character and training that will ultimately fit them for American citizenship; and that other races shall be excluded from immigration, except for purpose of trade, travel and education."

A HORRIBLE TRAGEDY OCCURRED AT PALATKA

NEGRO SHOT TOP OF HIS WIFE'S HEAD OFF.

Man Then Deliberately Walked to County Jail and Gave Himself Up to the Sheriff.

PALATKA, Feb. 8.—A domestic misunderstanding between a negro by the name of Bowman and his wife culminated in a tragedy Saturday night about 6 o'clock, when Bowman blew his wife's brains out with a double-barreled shotgun loaded with buckshot. After the commission of the deed Bowman deliberately walked in the direction of the county jail, gave himself up, and was put behind the bars.

One of the deadly missiles struck the woman in the right temple. The remainder of the charge bunched around the right ear and made pulp of the skull and skin. So fatal was the wound that the woman scarcely had time to realize what had befallen her.

Grief and consternation reigned in the colored section, where the shooting occurred, and the frenzied screams of women and the cries of children blended in fearful and discordant unison. A physician was immediately summoned, but the unfortunate victim was, of course, beyond all human aid.

Sheriff Kennerly and his alert deputies were at the scene at once and stood ready to do whatever was necessary had the negro attempted to escape.

Liste, \$3.60; P. G. Ramsey, \$3.65; T. B. Tillis, \$2.63; Walter Bell, \$37.20; M. A. Bexley, \$5.07; S. P. Thomas, \$8.20; S. O. Barron, \$2.34; J. L. Thomas, \$12.30.

That the following bonds be approved: Evans Halle, notary public; A. H. Blanding, notary public; S. C. Haymans, justice of peace; F. E. Dennis, notary public; W. E. Bell, notary public; I. E. Webster, notary public; J. D. Watkins, notary public; F. D. Patterson, constable.

A. E. Cline, S. F. Skipper, A. F. Torlay, J. M. Eddy and Joseph Howard, having complied with the law, were allowed to carry a pistol, and Joseph Howard and A. R. Turner were allowed to carry a repeating rifle.

That the following area of Alachua county, Fla., the same being election district No. 7, be and the same is hereby declared a justice of the peace district No. 7, to wit: Election district No. 7, bounded on the west by range line dividing ranges 19 and 20, on the north by a line dividing townships 8 and 9, range 20, on the east by line beginning at the northwest corner of section 2, township 9, ranges 20 and 21, thence south to half-mile stake on east line of section 1, township 10, range 20, on the south beginning at the half-mile stake on east line of section 1, township 10, range 20, and running due west on the half-mile section line through section 1 to 6, township 10, range 20, to the range line between 19 and 20.

The report of J. D. Matheson, county treasurer, was received, showing the condition of the several funds as follows:

General Fund	\$ 2,258.66
Road fund	3,589.64
Fine and forfeiture	18,302.99
Special road No. 1	163.71
Special road No. 2	630.23
Game fund	920.50
School, special fund	1,560.38
	\$27,426.11
General overdraft	651.33
	\$26,774.78

Ordered, That C. C. Warren, game warden, be paid \$50, and Amanda Leigh be dropped from pauper list. The Board then adjourned.

GOOD IMMIGRANTS FOR SOUTH OR NONE AT ALL

This Section Needs Development, Not Hindrance, Says Director Dawe of Southern Congress.

MONTGOMERY, Ala., Feb. 8.—G. Grosvenor Dawe, managing director of the Southern Commercial Congress, when interviewed yesterday relative to the attitude of the congress toward immigration, had this to say:

"As the Southern Commercial Congress looks towards making the work of all Southern commercial bodies more effective, its attitude towards immigration will be based upon a consensus of the views held by organizations throughout the South. It is a subject on which in the South there is a wide divergence of opinion as to methods, but very clearly defined views as to the results that are desired.

No Desire for Some Classes.

"Speaking at this moment for Alabama alone, I may say that there is a decided feeling in favor of the arrival from abroad of white agriculturalists and others, particularly from northwest Europe and the British Isles. Such men will always be welcome in the South; for they arrive in America with a due respect for law and order and with a sympathy for the government ideals which have made America great.

"There is little desire for the class

of immigrants who later lead to a struggle in maintaining the ideals of American civilization. The general feeling is that the wonderful agricultural possibilities of this part of the Union had better remain unused if the utilization of them should lead to accentuating in any way the effort to maintain that which has already been gained in the past century.

South's Part to Be Large.

"The purpose of the commercial bodies of the South are high. Development is desired and not hindrance. My intimate knowledge of many men throughout the South, dealing with the problems of its development, has shown me that they desire the utilization of the South's advantages, but do not desire to lay any additional problems of the present or coming generations.

"The South with its great resources, is destined to play in the harmonious developments of the nation, a vastly more important part than it ever played in the earlier years of the country. This is realized by the commercial bodies, and the full seriousness of a hastened development of today's leading to intenser problems of the future, is fully understood and will be guarded against."

Charles Jones, alias Lewis Wright, a negro brakeman on the A. C. L., was

burned to death while incarcerated in the Leesburg jail one night last week. It is thought that the jail was set fire to by parties who entered one of the cells and stole a large quantity of "blind tiger" whiskey which the marshal had captured and stored there for safe keeping. Jones had been carefully searched for matches by the marshal and he is certain that the prisoner had no matches about him.

Mr. Thomas Milton Knowles, who carries the mail and supplies to the weather bureau at Sand Key, reports that last Thursday, while returning from the trip, when half way between Sand Key and Key West, he saw a commotion in the water, which was calm a short time before and discovered a large object rising from the water. It looked like a large ship bottom upwards, and soon began to blow and lash its tail. Mr. Knowles had a good look at the monster and at one time it was coming towards him, which greatly frightened him, being about 500 feet away. He stayed about 15 minutes above the surface of the water at one time, but would rise and sink and finally went out of the channel into the Gulf. Whales have been seen around the Florida keys before which come near the land to die. There were two large ones not far from the keys some years ago, which were stranded on the sand bars and died.

SHOOTING EXHIBITION MONDAY AFTERNOON

W. C. CO. REPRESENTATIVE
SHOWS UP RARE WORK.

Gun Club Organized Here as Result
of His Efforts—Tison and Handy
Prove Good.

Our citizens were entertained on Monday afternoon by a novel and unique exhibition of shooting by E. R. Holt, traveling representative for the Western Cartridge Company, for whom the Gainesville Hardware Company are the wholesale agents.

The entire affair was an impromptu one and free for all who cared to look on or participate. Mr. Holt wired Jacksonville for a barrel of blue rock targets, secured the use of a trap, and had all necessary arrangements made at his own expense, and then furnished the shells free for all who would shoot, about thirty taking advantage of the offer. The shooting of the locals proved highly satisfactory, considering that they have not shot at targets in the past two years, and a good many of the number never at all. The best scores were made by W. H. Tison and C. J. Handy, ten each, Maxey Dell and Robert Davis nine each, Joe Ettel and a few others eight each.

Mr. Holt then gave a demonstration of his shooting, which he has not attempted before for several years. He broke the targets laying on his back and shooting with his feet; he kept the same position and broke them shooting back over his head, hung by the legs from a horizontal bar and broke doubles. He used an automatic gun and broke four targets slung into the air simultaneously. He batted a rubber ball into the air with the butt of his gun and shot it five times before it fell to the ground. He broke targets shooting from his hip and then kicked a can into the air and shot it all to pieces without raising his gun, and performed numerous other feats. After this exhibition he broke 72 out of 75 targets, 59 of them being straight.

After the shooting the crowd adjourned to meet at the Brown House in the evening for the purpose of organizing a gun club. Dr. J. H. Alderman was chosen president and Tom Stevens secretary of the club.

Mr. Holt asked all the spectators to come out and see the treat in store for them from the representatives of the U. M. C. Company who will be here on next Friday, and spoke in the highest terms of Miss Oakley and the one-armed wonder, Mr. Maxwell.

For City Marshal.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,

BEN T. ARNOW.

I take this method of informing the public that I am a candidate for City Marshal at the election to be held on April 13, 1909. I respectfully solicit the support of all voters, irrespective of party affiliation, and promise to faithfully and impartially discharge the duties of the office should I be elected. Respectfully,

CHAS. C. WARREN.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.

LIVE OAK, Feb. 8.—Mr. J. I. Stanford's dwelling, in the western part of the city, was destroyed by fire at 3 o'clock this morning. The fire had gained such headway before discovered that it was with difficulty that Mr. Stanford succeeded in saving his family, and in doing so he was painfully burned on his hands and arms.

A part of the household goods and wearing apparel were saved.

Loss is estimated at \$3,000, with \$1,000 insurance on the building and \$500 on furniture.

When Animals Are Ill.

Said a prominent veterinarian: "Animals when sick are the most helpless and appreciative of all creatures, and the way of administering relief and medicine in many instances is as novel as it is effective. The most savage and revengeful animals during spells of severe pain are, as a rule, as docile and tractable as a child. Relief must come from a human being, and come quickly, and they seem to know it. The most vicious horse when groaning with pain would allow a mere child to administer relief, and many of the wild animals when in sickness seem to forget their savage instincts."

THREE CASES BEFORE MAYOR DAVIS MONDAY

TWO DRUNKS AND ONE FOR EN-
GAGING IN "MANLY ART."

Jonas Williams "Felt Good" and Want-
ed to "Clean Out" His Household.
Had to "Shell Out."

Saturday night was not out of the ordinary, but it seemed as if "scrapping" was in the air, and the officers succeeded in rounding up four for the mayor to handle in court Monday morning.

Jonas Williams, a great big negro who must have his "corn" every Saturday night, proceeded to do his regular stunt of filling up to the limit and then putting his household to flight. He was thus engaged when Policeman Owens and Officer Bruton arrived on the scene and put the would-be wife beater under arrest. He was required to leave \$5 and costs and cautioned about his actions hereafter.

Kite Francisco and Joe Floyd were arrested on a charge of fighting. Floyd had made a purchase from the fruit man, and instead of paying for same he cursed the fruit dealer, who "went after" him. They were each fined \$5 and costs.

Riley Williams, a young negro who is a good-natured fellow, but just simply got on a plain drunk, was let go with \$3 and costs.

His Conundrum.

"What is the difference," asked the man with the erratic eyebrows, "between a tall, stout man whose wife has purchased for him a pale pink smoking jacket with yellow facings and a pocket that is utterly out of convenient reach at a dry goods store late in the afternoon of the day before Christmas, after having put off the purchase for two weeks because she had to attend half a dozen bridge parties, and a large, jovial Russian nobleman who has been convinced of the brotherhood of man and who is devoting himself to the laudable work of converting the people on his estates?"

"How's that?" asked the man with the dilatory mustache.

The man with the erratic eyebrows repeated the query, and the other man, of course, refused to answer, saying that if he replied to hypothetical questions he must demand an expert's fee.

"Oh, well," explained the man with the erratic eyebrows, "it is simple enough. One pays for the present and the other prays for the peasant."—Chicago Post.

A Martyr to the Fox.

A fox can climb almost as well as a cat and will often be found lying in trees and on the top of ivy covered walls. High walls covered with ivy often surround private residences in hunting districts. One of these domain walls caused the tragic death of a hound in the south of Ireland a few years ago. There was a belt of trees with thickish undergrowth close up to the wall, and the hounds were running a tired fox hard through this belt. Suddenly the cry ceased; there were the unmistakable growling and worrying which proclaim a kill. The master jumped off his horse and pushed his way through the undergrowth. On getting to the pack, instead of finding a dead fox he saw to his horror one of the best hounds torn to pieces. It was easy to understand what had happened. The fox had got over the wall by the help of some ivy, and the hound had tried to jump over after him, but, falling back among the others, had been killed before they realized their mistake.—London Standard.

The Greyhound.

Various explanations have been given of the origin of the term greyhound, some authors claiming that the prefix grey is taken from Graius, meaning Greek, others that it signifies great, while still others say that it has reference to the color of the animal. In no other breed of hounds is the blue or gray color so prevalent, and consequently the last mentioned derivation seems the most plausible.—London Notes and Queries.

A PARISIAN HAIR CUT.

It is Expensive at Times, but Always a Sociable Affair.

The Paris hairdresser cannot be persuaded to do anything more than pretend to remove a little hair. It almost breaks his heart if you insist on a serviceable cut.

The price charged is sometimes a painful surprise to the unsuspecting visitor. He has been warned to avoid those establishments where the tariff is not displayed and so does not hesitate when he sees the announcement, "Hair Cutting, 1 Franc."

When the operation is over, however, he is a little hurt at being asked for 3 francs.

If he knows enough French to understand, he gathers that 1 franc is for the hair cutting, 1 franc for a "friction" and 1 franc for "perfume."

Frenchmen pay these charges without complaining and seem to enjoy a visit to the barber's. As they generally go to the same shop—and Frenchmen have their hair "cut" once a week—the assistant becomes their confidential friend.

His customers discuss with him their love affairs, their ailments and lastly their business.

He is also supposed to be a great authority on horse racing, but he is too prudent to act on his own tips and generally manages to save enough money to start in business for himself. —London Mail.

ANATOMY.

A More or Less Helpful Lesson For Beginners.

Proceeding in a southerly direction from the torso, we have the hips, useful for padding, and the legs. The legs hold up the body and are sometimes used in walking, but when riding in automobiles they take up valuable space which otherwise might be employed to better advantage.

Attached to the legs are the feet. Some varieties of feet are cold. Some people are born with cold feet, others acquire cold feet, and still others have cold feet thrust upon them.

The surface of the body is covered with cuticle, which either hangs in graceful loops or is stretched tightly from bone to bone.

On the face it is known as complexion and is used extensively for commercial purposes by dermatologists, painters and decorators.

Between the cuticle and the bones are the muscles, which hold the bones together and prevent them from falling out and littering up the sidewalk as we walk along.

Packed neatly and yet compactly inside the body are the heart, the liver and the lungs; also the gall, which in Americans is abnormally large.

These organs are used occasionally by the people who own them, but their real purpose is to furnish surgeons a living.—Thomas L. Masson in Lippincott's.

A FAMOUS BEAUTY SPECIALIST

Gives Advice to Women Lacking in Energy and Vitality.

Thousands of women are using toilet preparations unsuccessfully.

Cosmetics fail to improve their thick, muddy complexions or to banish the pimples, blackheads and crow's-feet.

No wonder. Their trouble lies far deeper than the skin. They have bad blood, and bad blood in 90 per cent of the cases arises from inflammation of the mucous membrane. Their blood is filled with poison which is certain to break out in unsightly humors and blotches—while pale, drawn faces, deep circled eyes, stooping shoulders and weak backs complete the story of suffering and despair.

Inflammation of the mucous membrane is catarrh. Banish catarrh and complexions will clear as if by magic, pain vanish, eyes will brighten, faces become plump and shoulders erect. Perfect beauty goes only with perfect health, and perfect health for women can only be obtained through Rexall Mucu-Tone, the one positive and permanent cure for catarrh.

Mrs. Swift, 44 W. 26th street, New York City, the most famous beauty specialist in the world and an accepted authority on all relating thereto, has this to say of Mucu-Tone:

"I can strongly endorse the claims made for Rexall Mucu-Tone as a cure for systemic catarrh. Its tonic effects are remarkable. It builds up the strength and restores vitality. If women who are tired and run down, lacking in energy and vitality, will use Mucu-Tone, they will praise it as I do for its strengthening and healing qualities."

Rexall Mucu-Tone works through the blood, and acting directly upon the mucous cells—the congestion and inflammation of which are the sole cause of catarrh—causes them to expel the poison and to resume their natural functions. Thus the membranes are cleansed—the blood purified and revitalized.

We know that Rexall Mucu-Tone will cure every form of catarrh, no matter where located, of how long standing, or by what other names it is known. We guarantee to refund your money if you are not satisfied with the vigorous health and clear complexion it brings you.

Sold only at our stores. Price, 50 cents and \$1.00 per bottle. Mail orders filled. J. W. McCollum & Co., corner East Main and Union streets.

A Free Winded Prince.

The following is told of the famous Prince of Conde. He left his son, aged nine years, 50 louis d'or to spend while he himself was absent in Paris. On his return the boy came to him triumphantly, saying:

"Papa, here is all the money safe. I have never touched it once."

The prince, without making any reply, took his son to the window and quietly emptied all the money out of the purse into the street. Then he said:

"If you have neither virtue enough to give away your money nor spirit enough to spend it, always do this for the future, that the poor may have a chance of it."

Worn Out.

That's the way you feel about the lungs when you have a hacking cough. It's foolishness to let it go on and trust to luck to get over it, when Ballard's Horehound Syrup will stop the cough and heal the lungs. Price 25c, 50c and \$1.00 per bottle. Sold by W. M. Johnson.

The Bab.

The East Indian teacher who founded the cult known as "Babism" was "the Bab"—Mirza Ali Mohammed. He was born in Shiraz, Persia, in the year 1820. He was trained at first to commercial life, but a pilgrimage to Mecca awakened in his heart the religious zeal which made him devote his life henceforth to developing the faith which he held. Upon his return to his native city in 1844 he assumed the title of Bab, or "Gate" leading to the truth. In the eyes of the orthodox Mohammedans the tenets of the Bab were rank heresy, and he was taken to Tabriz and shot.—New York American.

A Queer Trunk Problem.

One of the minor problems that present themselves to managers of homes for elderly persons is the accumulation of trunks. Each new arrival brings one or more trunks, often several, and it is not expected that these ever will be taken away, as the inmates are to remain permanently. It is not, however, considered safe to sell the trunks or give them away, as they are the private property of the inmates, and there is a possibility that the trunks may be needed again through some change in affairs or fortunes. The trunks therefore pile up until they become the despair of managers, and it is a relief when some of the older or least substantial boxes break apart from mere decrepitude and can conscientiously be consigned to the scrap heap.—New York Press.

The Anchor.

"Captain," remarked the nuisance on shipboard who always asks foolish questions, "what is the object in throwing the anchor overboard?"

"Young man," replied the old salt, "do you understand the theory of seismic disturbances? Well, we throw the anchor overboard to keep the ocean from slipping away in the fog. See?"

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable.

Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything but if you have kidney, liver, or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Home Oldswamp-Root, Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

S.S.S. HEALS OLD SORES

Before any sore can heal, the cause which produces it must be removed. As long as the blood, from which our systems receive their necessary nourishment and strength, remains impure and contaminated with disease germs, any old sore on the body will remain open, and resist every effort made to heal it. The nerves and tissues of the flesh around the places are continually fed with unhealthy matter and nature is simply disposing of the poison by draining it from the system through the sore. The only cure for an old sore is a thorough cleansing of the blood, entirely ridding the system of the cause. S. S. S. heals old sores by removing every particle of impurity from the circulation. It goes down to the very bottom of the trouble and completely cleanses the circulation that there is no longer any impurity to drain through the sore, but the place is once more nourished with rich, healthy blood. S. S. S. heals the sore from the bottom, the place soon fills with healthy, firm flesh, the tenderness leaves, all discharge ceases, the skin regains its natural color and when S. S. S. has thoroughly cleansed and purified the blood the place is permanently healed. Book on Sore and Ulcers and any medical advice free to all who write.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operation.

Only by reason of this close telephone arrangement between the Bell Telephone companies is it possible to get a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any place in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer, the citizen in all walks of life and the plant here is an important link in the great chain.

That self-boasting charity, which is always seeking misery elsewhere but does nothing to relieve misery in one's own neighborhood, is of the spurious variety.

The President of Cuba has already announced his cabinet, but Mr. Taft is contented to let the newspapers here have their play at cabinet making for awhile yet.

The mayor of St. Louis meant well in offering free baths to the tramps who attended the recent Tramp Congress in that city, but they failed to appreciate it. There is but little affinity between tramps and water.

The kindergarten is said to be on the decline. What kind of a nation can we hope to become if the youth of the country is allowed to grow up without knowing how to make raffia baskets and tissue paper candles?

Since 1900 divorce in this country has increased thrice as fast as the population. But this should give no one cause for alarm. It means simply the application of our much taught lesson of life, if at first you don't succeed, try, try again.

One may not always be in a position to render financial aid to others, but it is within every man's power to speak the helpful, sympathetic word and reach forth a hand to lift, and oftentimes such help is more valuable than any amount of money.

The cold weather of last week did no damage to oranges on the trees in this section. Former Sheriff Fennell presented the editor of The Sun with a dozen oranges picked from his grove near Hawthorn which were as juicy and of as fine flavor as we ever tasted.

The hazing of a Japanese student in a California university seems from a distance to be too small an incident to warrant a war between nations. But as long as the jingos of both countries are determined on war they may be trusted to find a casus belli eventually.

The public is fond of fancying that Mr. Taft has the smile that won't come off, but if anything can succeed in effacing it four years in the White House are likely to do it. We hasten to predict that in March, 1913, he will find it harder to get the smile on than to get it off.

Through the courtesy of Superintendent A. L. Glass a party of gentlemen went to Fairfield last Sunday over the Jacksonville and Tampa railway. In the party who left Gainesville was B. W. Blount of Jacksonville, vice-president and a large stockholder in the road. At Micanopy they were joined by Drs. L. and H. L. Montgomery. At Fairfield they were shown probably the largest and best deposit of lime in the State, which will some day prove profitable to the man or men who develop it. The roadbed of the railroad was found to be in good condition, and Supt. Glass was complimented by all upon the good work he has done in this line since he assumed charge. The J. & T. passes through the best farming section in Florida, and some day the road will prove profitable to its owners. The day was an ideal one and the large fields of vegetables along the route were beautiful for the eye to behold.

WHO MAKES THE STYLES?

When a mere man looks at woman as she is clothed today, the hipless, bustless, curveless, hydrocephalic creature that he once knew as the divine incarnation of his dreams of femininity, he usually proposes the question, who makes the styles? It isn't worth while to bother about the answer (it is merely an interjection after all), for dear woman cares not who makes the styles so long as someone provides her with the money to wear them. But the question, after all, is not unanswerable. The tailors and dressmakers and milliners make the styles, and woman accepts them as she has accepted her convictions, her morals, and her entire relation to life, without question. Woman is fundamentally a passive creature, and she has learned well her lesson that in her passivity she finds her greatest power. By her passivity she secures her position in the world, by it she secures a husband and keeps a roof over her head, and it would be strange and anomalous if she rose from it and rebelled against fashion. When the dressmakers of nearly all of the civilized countries of the globe were in session in Paris last year the greatest of all Paris tailors rose and explained the situation to the bewildered and despairing fashion makers. The United States has passed through a panic, he said, and there are sure to be hard times ahead. If Bryan is elected we are lost. Unless we invent some entirely new style of gowns and hats we shall have no orders. Women will wear their old clothes for economy's sake, and unless they can be made to feel the hopelessness of their old gowns we shall have no orders. Therefore the pleated skirt, the short sleeve, the normal waist line and the becoming hat must go. Promptly the dressmakers took the cue. They took the last pucker of fullness out of the skirt and put on the market the abomination known as the sheath skirt. They added a dozen inches to its length at the bottom and raised it a fraction of a foot at the top to cut off the possibility of making over the last year's gown. They brought collars up to the tips of the ears and sleeves down to the knuckles. Then they crowned the hideous achievement with a monstrous hat that defied every law of beauty and aesthetics. They introduced iron clad corsets that suppress hips, bust and breathing, but has anyone heard a woman's voice raised against the travesty they have made of the human form divine? So far not a whisper from women, but a chorus of ecstasy rises to the stars with the latest announcement that the sheath gown, the merry widow hat and the hunch-back blouse are out. And all the time the men are demanding "who makes the styles?" and the women are busy calculating where the money is to come from to buy all of the new delightful and enchanting things that are going to be the fashion.

It is to be hoped that the cold weather which "scorched" some of the orange trees last week has killed the white fly pest. Dr. L. Montgomery of Micanopy, who has a fine grove of the golden fruit, is of the opinion that the white fly will not be so troublesome the coming season as it has been. He keeps his trees as free as possible of the pest by the use of a solution of his own manufacture which he has found very effective in destroying the insect.

Vice-President-elect Sherman says he will not attempt to keep up the social pace set by Fairbanks. Well, it may be better for his political career, since it was the social obligation of serving cocktails to his guests that helped to wreck the Presidential boom of the Vice-President.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by all druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

CURRENT COMMENT.

The Louisville Courier-Journal says: "This is the age of the airship and the wireless telegraph, and yet there was probably not a newspaper in the country which did not give up some of its space yesterday or the day before to the groundhog as a weather prophet. There are just about as many fools in the world today as there ever were."

The Philadelphia Record says: "If business isn't booming quite as was hoped for, there is no question about the radical improvement of things since a year ago. One evidence of this cited by Dunn's Review is that the bank clearings in 110 cities were \$14,003,261,453 last month, against only \$11,336,483,836 in January, 1908—an increase of more than 23 per cent. In many of the cities the clearings were larger last month than they were in January, 1907, when business was at its height. But for the great shrinkage in stock business in New York the clearings of the country would have run above those of two years ago. If there is still some idle machinery, the volume of trade must be very nearly normal."

The Indianapolis News says: "The edge of folly in this is that neither the Japanese nor any other people are trying to encroach on our rights or assimilate with our race. (One of the standing accusations against them is that they do not assimilate.) The Japanese are entitled to their treaty rights and under them in this country to the equal protection of our laws. That is all. They may be legislated against in terms that legislate against all aliens; but they cannot be discriminated against. And if California and Nevada think that we can or will put a wall around the country to shut out a particular people from ordinary intercourse—such as we extorted from Japan for ourselves by our warships, they are thinking in terms of the Chinese and Japanese of dead and gone generations and not at all in the spirit of America or the world today."

The Washington Post says: "All Americans, we feel sure, want to retain the friendship of Japan, and are always ready to give proof of their good faith. But they cannot fawn, and they will not deceive. They will look after their own welfare, as all nations must do. They will not trifle to any nation in order to obtain consent to exercise their own rights in their own country. If any nation should demand, as the price of friendship, any concession from the United States which cannot be granted in honor, self-respect, or courtesy, the demand will be refused. Such friendship is not worth having. The friendship which Americans desire to maintain with Japan is that of mutual respect and scrupulous observance of mutual rights. The friendship that must be bought by subservience is not wanted, and the friendship that cannot last without continual outpourings of regard is not worth while."

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

In addition to the Piano there will be issued by The Bush & Safford Piano Co., on a new \$400 Howard Piano, eighteen Transferable Due Bills, same to be used as a first or initial payment on a new Howard Piano. These due bills will be given in this voting contest as follows, to persons residing in Alachua County:

To the first six receiving the next to the highest vote, a due bill for each for \$200.00
To the second six receiving the next highest vote, a due bill for each for \$175.00
To the next six receiving the next highest vote, a due bill for each for \$150.00

These due bills may be used by the winners or can be disposed of to anyone for any value they may see fit, and will be worth their face value upon the purchase of one of these new pianos.

In the event of a tie for any prize offered, a prize similar in all respects there-to will be given each of those tying.

How and Where to Get Votes

The following merchants will give one vote for every cent paid into their establishments for goods which they handle:

 the enormous risks of a business

soot had failed to blot and ruin the
 stock, water from the engines in the
 street had flooded it until ruin alone
 was descriptive. Everything had been
 closed down, workers in the plant
 were idle, and the proprietor was
 awaiting the adjustment of the insur-
 ance which he had been carrying. But
 in the extent of this insurance itself
 was a knotty situation.

Ordinarily the house had carried pol-
 icies which would have left it the
 minimum of risk on its machinery,
 stock and materials. Ordinarily a still
 further blanket policy was carried for
 the purpose of covering the normal
 amount of book material on hand
 owned by others and contracted for
 rebinding. But only a few days be-
 fore the fire the house had received a
 consignment of \$5,000 worth of law-
 books to be bound. These volumes,
 aside from intrinsic value, represented
 so much of other value as to make
 the risk abnormal for almost any sea-
 son. And these books were ruined.

Before receiving them the binder had
 asked the owners to take out a
 policy for themselves protecting them
 against such fire loss. The firm had
 not done so, and when the fire dam-
 age came the disposition of the owners
 was to hold the binder for them under
 one of the binder's blanket policies.

On this one disputed point, taking it
 into court, will some one make a
 guess as to what this one feature of
 the fire may cost the binder, who to
 all purposes was "insured," if it should
 be settled in the supreme court after
 five or seven years, for example?

But in the case of the big manufac-
 tory, with its imported special machin-
 ery, its season of rush work and its
 enormous and fluctuating stock of ma-
 terial—if on the morning after the
 fire the assuring companies settle in
 full for the visible losses, how much
 has the company been damaged?

Of first consideration, perhaps, is the
 enormous payroll of the concern. If
 most of the mechanical work of the
 plant has been done by pieceworkers,
 still the necessary force of directing
 employees on salary is a problem. The
 determination of the owners is to start
 up anew. Tried and proved employees
 must be retained while the work of
 rehabilitation goes on. They must be
 paid even if they are to do no more
 than wait. Settlement of some kind
 must be made with contractors who
 have been supplying raw materials
 from the hands of other thousands of
 workers. No matter what the clauses
 in contracts providing immunity in
 case of fires, strikes and acts of Provi-
 dence, every line of business affecting
 the welfare of the manufactory has
 been affected.

The plant is a total loss. Before it
 can be rebuilt the ruins of the old fac-
 tory must be cleared away.

In the meantime all those customers
 of the manufactory who have been
 pressing for the filling of contract or-
 ders find themselves shut out of any
 chance for receiving them. They turn
 at once to other competing establish-
 ments for the work. Not only does the
 burned out firm lose all chance of
 profits from this work, but it is run-
 ning a long chance of losing some
 of its oldest and best customers of
 years' standing.—Chicago Tribune.

The End of the Chase.

Two ladies, friends of the superin-
 tendent, were visiting a hospital for
 the insane. During the noon meal the
 superintendent remarked that the door
 of the violent ward was being repaired
 and that the guards would have to be
 unusually watchful until it was fin-
 ished. After dinner the ladies went
 for a stroll down the beautiful lane
 leading up to the main building. Sud-
 denly they heard footsteps as of some
 one running behind them and were
 horrified on looking around to see a dis-
 sheveled, wild eyed man pursuing
 them. One of the women quietly
 stepped to the side of the road. The
 other, screaming at the top of her
 voice, ran down the road with the ma-
 niac close upon her heels. At last
 spent with running and gasping with
 fright, crouching in anticipation of the
 blow which she was expecting, she
 waited her fate. The man, panting and
 grinning, tapped her lightly on the
 shoulder and said:
 "Tag! You're it."—Cleveland Leader.

Fortune Telling

Does not take into consideration the one essential to wom-
 an's happiness—womanly health.
 The woman who neglects her health is neglecting the
 very foundation of all good fortune. For without health
 love loses its lustre and gold is but dross.
 Womanly health when lost or impaired may generally be
 regained by the use of Dr. Pierce's Favorite Prescription.

*This Prescription has, for over 40 years,
 been curing delicate, weak, pain-wracked
 women, by the hundreds of thousands
 and this too in the privacy of their homes
 without their having to submit to indele-

Death of Miss Shepard.

Lessie, the fourteen-year-old daughter of S. F. Shepard, died last night after an illness of about two weeks, the cause of death being typhoid pneumonia.

The funeral will occur this afternoon from the First Baptist church.

Freaks of the Cold.

It is a noticeable fact that damage by the cold weather of last week was much less on the T. & J. railway between Gainesville and Micanopy than between the latter place and Fairfield.

We want our friends to understand fully how hard we have worked to make our comedy, "The Late Mr. Jones," a success, and we also want them to understand that the sound of happy laughter at our efforts will remove all thoughts from our minds of the grinding work of study and rehearsals. Be sure and secure your tickets today. If you can't come buy tickets anyway and give them to someone whom you know is unable to purchase.
